KA

Captivated by the poetic charm of various pharaohs painted four thousand years ago spearing fish in the marshes and hunting wild fowl with throwsticks, Katie became curious as to how the artists conveyed the netting for these various activities, and hence we have Ka. Ka, our version of the "fishnet," is printed in Switzerland on 100% Belgian linen and works brilliantly as a subtle visual texture on sofas drapes and chairs. Ka is a great complement to the more dynamic prints in the collection and conveniently comes in a wide array of seven stunning colourways: Alabaster, Conch, Scorpion, Alligator, Lagoon, Sloop, and Raisin.
