LUNA

A 15th century satin Kaftan decorated with appliquéd crescents inspired the design of **Luna**. The compelling, crescent motif has enjoyed long associations with astronomy and the zodiac from early Islamic times, and the moon itself has been imagined as a goddess by ancient cultures from time immemorial. We love the power and energy of **Luna** and are mesmerized by how quiet or intense this deceptively simple design becomes depending on the colourway. **Luna** is hand-screened in upstate New York and is easily customizable.
