## MENNA

Menna is a joyful interpretation of papyrus gone wild. As if a bundle of this watery plant were tossed high into the air and then fell free to the ground every which way. Katie wanted this melodic design to sing a song of happy abundance. Menna has been used successfully on headboards, curtains and pillows and particularly suits any client who loves the water. Menna is hand printed on 100% Belgian linen and is available in three enduring colourways: Rush of Rose, Pharaoh's Pond, and Shell's Belly.
